Terminus Expedition.

Now that the election is over, we have got rid of one public duty. We have another, however, to perform. We want a surveying party organised to proceed to Johnson Straits, and report on the character of the country from Vancouver Island shore to the head of Bute Inlet as a route for the proposed railway to Esquimalt. We don't want any doubts to exist on this point what ever. We don't want Mr. Trutch to say that it is impossible. Nor any one else to be whining about that route being impracticable. We require a corps of practical engineers to be dispatched thither forthwith, and make a running survey of the route. In view of it being a matter of general interest, we suggest that an engineer be sent by and at the expense of the Local Government ; and the very least that ought to be done is to send another by and at the expense of the city authorities. If a third were sent by a popular subscription so much the better. In this way the practicability of the route would be determined at once to the satisfaction of all parties. For our part we have not confidence enough in the Lands and Works Department to rely on it exclusively. Hence we suggest that two other engineers be sent. The Legislature will meet in Jan-nary; and we will require the report to corner of Kane and Blanchard streets, holds my power of deal intelligently with any amendment to

the terms of Confederation in order to

fix the terminus. We do not entertain

a doubt of the practicability of the John-

son Strait route, but in order to convince

the doubting we want the report of en-

gineers. We suggest therefore that

LANGE AGENTS for I LIGHTNING CREEK.

The Lightning co. are getting very rich pay again, and the yield this week is expected to be very large. The Spruce co. washed about 65 oz. from 11 sets of timbers. The Gladstone eo. have raised in the rock and struck gravel, which prospects about 25 cents to the pan, but have not yet got into the channel.

Omineca.

A miner, by the name of Cust, arrived at Cariboo from Omineca. The following account of the new mines, we clip from the Sentinel: Every person on Germansen Creek is making money; say from ten dollars to three ounces per day. Joe Clearibue, Joe Brown and Paine have the best claims on the creek. A tunnel run into the hill has paid expenses from first start. Cust thinks, grub baving been sent up in such large quantities, that most of the miners will winter there. A letter from Mr. Fitzgerald, dated at Stuart's Lake, October 24th, confirms the best news. Bonded Wines, Brandies, etc., attack of scurvy. He arrived there on the 15th to procure vegetables, but found all destroyed by frost. Up to the present time no extensive diggings have been found, but if gold is found above the Canyon everything will be lovely.

done me by Dr. Ching Fun of this city, nxet door Kwong
Lee & Co. For 24 years I suffered with neuralgia on
the brain, which baffled the skull of three first-class
American physicians. Latterly bronebitis attacked my
right lung, and my eyes became awfully inflamed. Depairing of ever being cured I placed myself as a last resors in the hands of Dr. hing Fun, and after five months
treatment I am a well man and feel that I cannot sound
the emment Chinese gentleman's praises too loudly, so the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find reliet, Respectfully,
